# EXCIMER LASER Forum

## SAN DIEGO

THURSDAY, MARCH 24, 2011

### SAN DIEGO EXCIMER LASER FORUM

Please join us for a 4-hour interactive educational program on Excimer Laser technology in San Diego, with in-depth coverage on the key topics below. This program is a great opportunity to gain valuable clinical pearls from your colleagues.

#### Key Topics:

- The importance of diagnostic information to drive the procedure
- Choosing the best treatment parameters for the individual patient
- How to measure successful outcomes
- Compare existing and upcoming technology
- Common complications that can develop from excimer laser surgery and options to address them
- Techniques and adjustments for improving outcomes with excimer laser surgery

### AGENDA
