

Best Practices for Retina and Glaucoma Therapy

Sunday, Nov 11th

10:00 AM **532 nm MicroPulse Laser Therapy: Clinical and Business Considerations for the Comprehensive Ophthalmologist**
 David M. Dickman, MD - Rolesville, NC

10:45 AM **Subthreshold Diode (810 nm) Laser MicroPulse: The Safest Treatment for CSC**
 Privatdozent Dr. med. Michael Janusz Koss, FEBO - Los Angeles, CA; Frankfurt am Main, Germany

11:30 AM **The Retinal Safety Profile of Subthreshold MicroPulse Laser for Central Involving Diabetic Macular Edema: 810 nm vs. 577 nm Wavelengths**
 Edoardo Midena, MD, PhD - Padova, Italy

12:15 PM **Panel Discussion: Principles of Subthreshold MicroPulse Laser Therapy for Retinal Disorders: Case Selection and Treatment Techniques**

Moderator:	Panel:		
Marco Zarbin, MD, PhD, FACS Newark, NJ	Martin Flores-Aguilar, MD Celaya, Mexico	Timothy Murray, MD, MBA, FACS Coral Gables, FL	Stela Vujosevic, MD Rome, Italy

1:00 PM **Video Cases: Managing Complicated Vitrectomies**

Moderator:	Panel:		
Eugene de Juan, Jr., MD San Francisco, CA	Pouya N. Dayani, MD Beverly Hills, CA	Mark Humayun, MD, PhD Los Angeles, CA	Lawrence S. Morse, MD, PhD, FARVO Sacramento, CA

1:45 PM **577 nm MicroPulse Clinical Trial for Dry AMD**
 Joshua Morrison-Reyes, MD - Washington, DC

2:30 PM **Raising the Bar on Repeatable Glaucoma Therapy: 532 nm MicroPulse Laser Trabeculoplasty**
 Steven Vold, MD - Springdale, AR

3:15 PM **Office-based Glaucoma Surgery: Transscleral Cyclophotocoagulation (TSCPC) after Initial Failed Trabeculectomy**
 Iqbal (Ike) Ahmed, MD, FRCSC - Toronto, Canada

4:00 PM **How to determine MicroPulse Laser Parameters for Subthreshold Treatments**
 Giorgio Dorin - Mountain View, CA

Monday, Nov 12th

10:00 AM **Reimbursement Considerations for DME in the Era of New Lasers, Implants, and Pharma**
 Kevin Corcoran, COE, CPC, FNAO - San Bernardino, CA

10:45 AM **Fotoestimulación con Láser de 577 nm Micropulsado para el Edema Macular Diabético [Photostimulation with the Micropulsed 577 nm Laser for DME] presented in Spanish**
 Martin Flores-Aguilar, MD - Celaya, Mexico

11:30 AM **From Anterior to Posterior Treatment: 532 nm MicroPulse Laser Therapy (MPLT) for the Comprehensive Ophthalmologist**
 David Gossage, DO, FAOCO, FAAO - Hillsdale, MI

12:15 PM **Expanding Indications for TSCPC**
 Nathan Radcliff, MD - New York, NY

1:00 PM **The Versatility of MicroPulse Laser Therapy: Current Clinical Applications and Research**
 Sam Mansour MD, MSc, FRCS (C), FACS - Warrenton, VA; Washington, D.C.
