## Valon Lasers at the forefront of development

Valon Lasers Oy is presenting the advanced products at Euretina and ESCRS Congress in London 12.-16.9.2014

**Come and test the VALON MULTISPOT LASERS at booth A18**

Ask also about the interesting study made by Moorfields Hospital with Valon technology –

“A prospective pilot study of the effects of panretinal photocoagulation delivered with a Multispot laser on retinal sensitivity and driving eligibility in patients with Diabetic Retinopathy.”
