

SCHWINDTASTIC

See what we mean at the
ESCRS, Booth C13

Find out what innovation leadership can mean for you.

See us in London, Sept.12-16 2014*

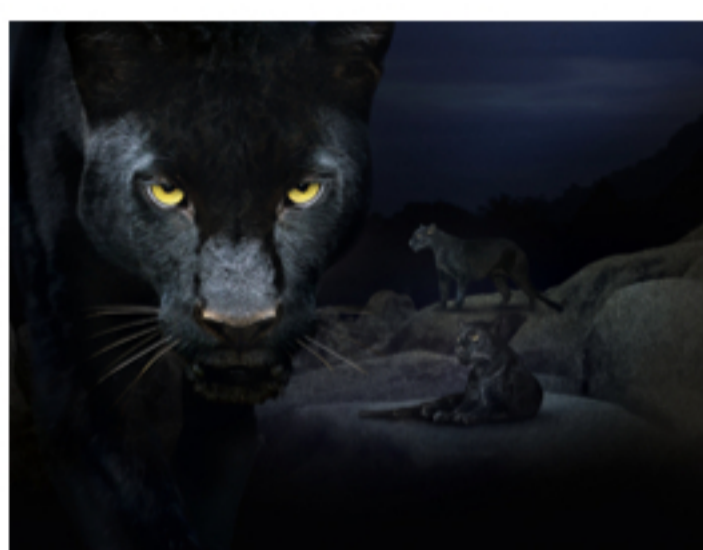

Exceptional ablation speed, extraordinary precision, unique technologies – SCHWIND technology leadership brings you clear benefits. Experience our SCHWINDTASTIC innovations at the ESCRS.

*industrial exhibition

The quick. The light. The flexible. SCHWIND MOBILE GENERATION.

The SCHWIND mobile excimer laser generation offers fast 500 Hz treatment and the same high precision and unprecedented safety of our AMARIS family, in a smaller, lighter, mobile configuration. That means greater economy and ease of use. Get an early look – we're showing a concept study at the ESCRS.

FOCUS ON PERFORMANCE

SCHWIND's AMARIS family of excimer lasers lead the world in precision, speed and safety, with a matchless depth of innovation and performance. They provide safe, reliable, fast treatment and help you achieve high patient satisfaction. Many publications in peer-reviewed journals document the performance advantages of SCHWIND excimer lasers. See them at the ESCRS!

We're working on a breakthrough development in nanosecond laser technology, that will allow you to do more with a single device than ever before. Get a sneak peek at the ESCRS.

Learn from leaders at the ESCRS in London.

EUROTIMES Satellite Education Programme

Lunchtime Symposium

Find out the latest from specialists on various aspects of corneal surgery. The SCHWIND lunch symposium takes place on Sunday 14 September 2014, from 13:00 to 14:00, Boulevard H. To take part, you need to register online with the ESCRS congress organisers directly at www.es CRS.org (participation is free for registered guests).
